# Executive Summary

This document presents the shelf of investable projects available in West Bengal in 2019 over a wide range of sectors that include manufacturing, chemical, ICT, logistics, transport and various industrial infrastructure.

Each of these project profiles are provided with details of the prospective location of the project, area, project description, investment potential, available infrastructure, suggested operating model of the project, and nodal department with official contacts.

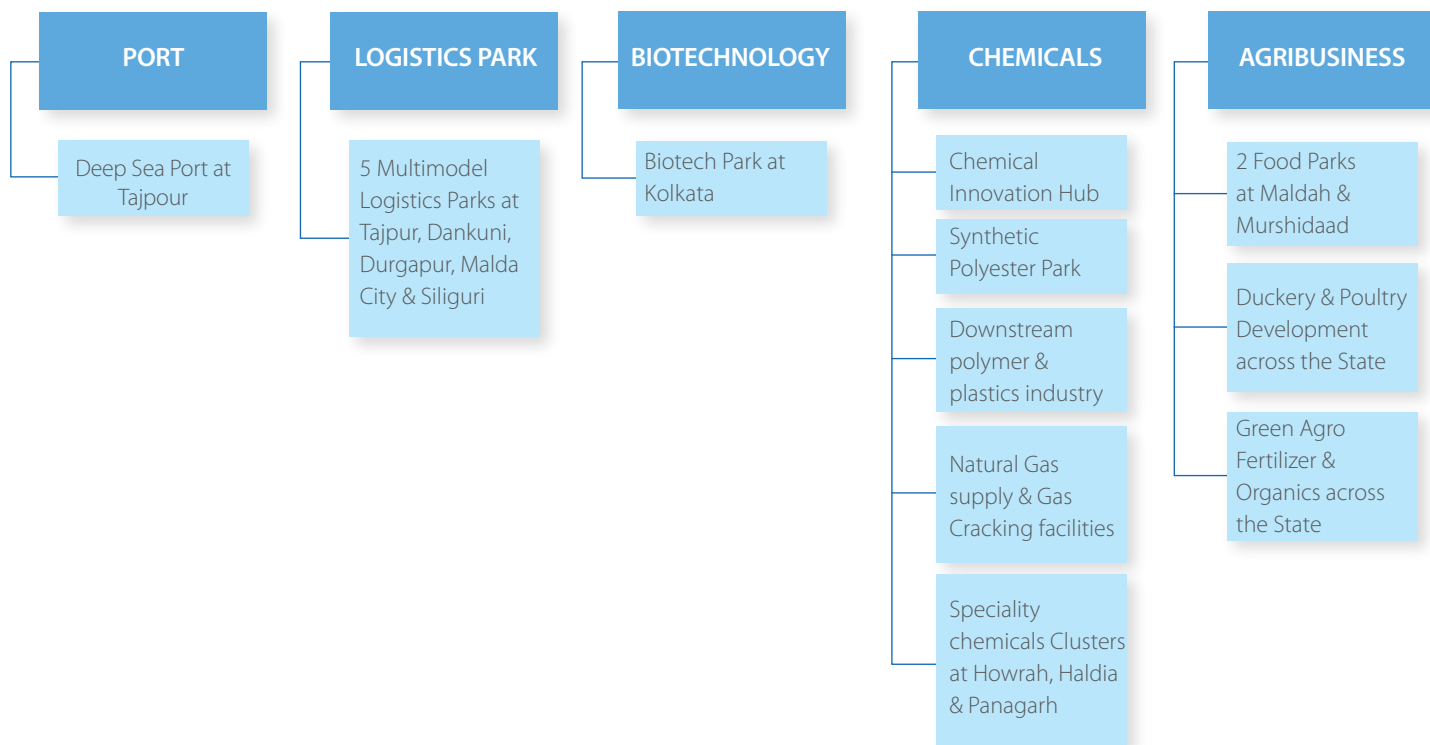

The profiles of the 150 investable projects presented here are divided into 17 sectoral categories, which together represent around USD 17.8 billion investment opportunity in West Bengal..

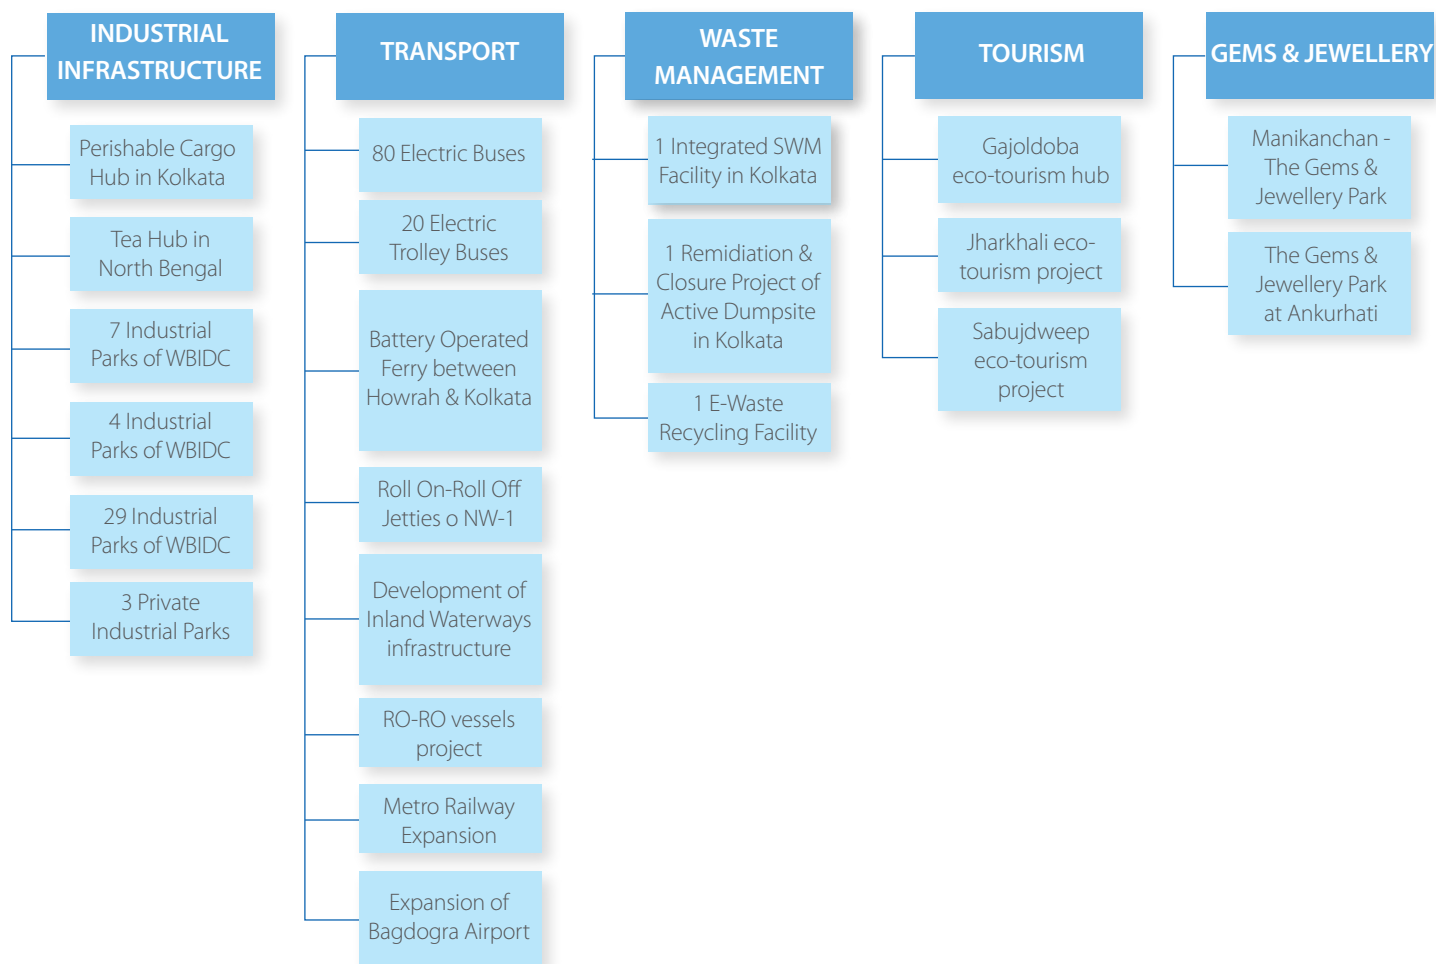

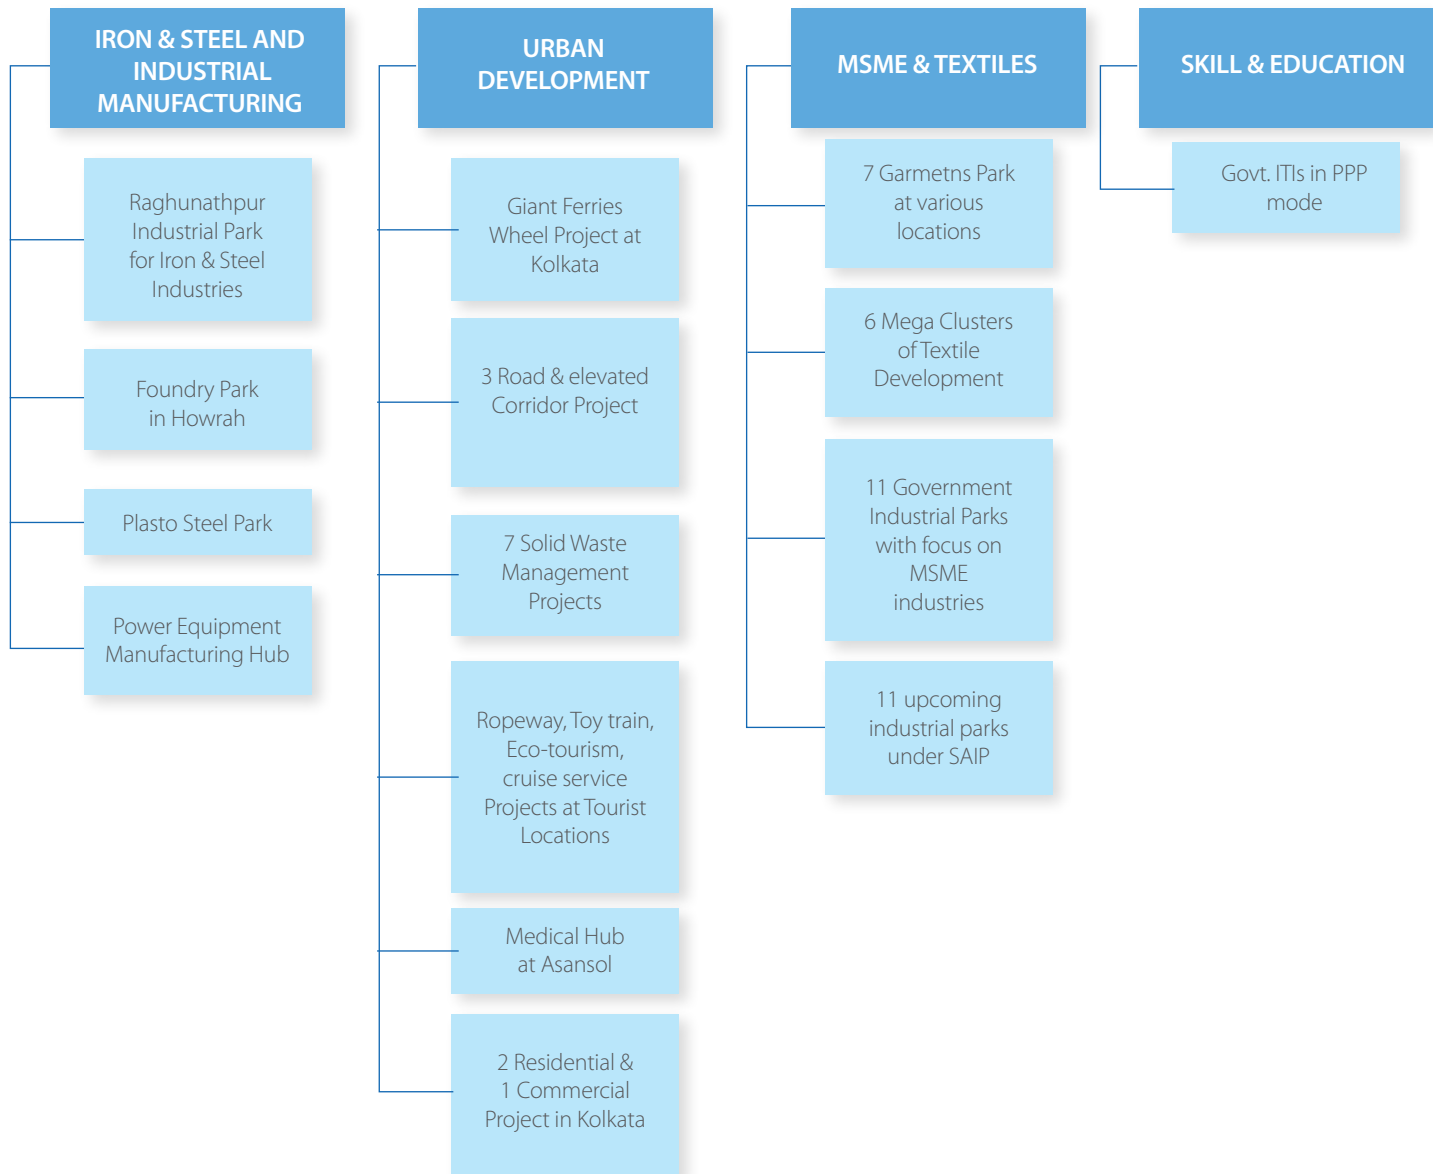

The location of these projects are spread across the state with major infrastructure connectivity like roads, power and water available at all locations. Most of the industrial parks have doorstep infrastructure provisions by the Government and land available in plot basis on lease. Single Window Contacts have been provided for investors to get in touch with respective authorities for further information on the projects.

With a total investment potential of USD 17.8 billion across the State of West Bengal, the Sectors with the highest investment potential are MSME & Textiles, Multiproduct Industrial Parks, Power & Mining, Chemicals, Iron & Steel, Logistics and Port showcasing almost 90% of the total investment potential in the State. Other Sector also have considerable scope of investment by private sectors and have a variety of policies and schemes in favor of investments.

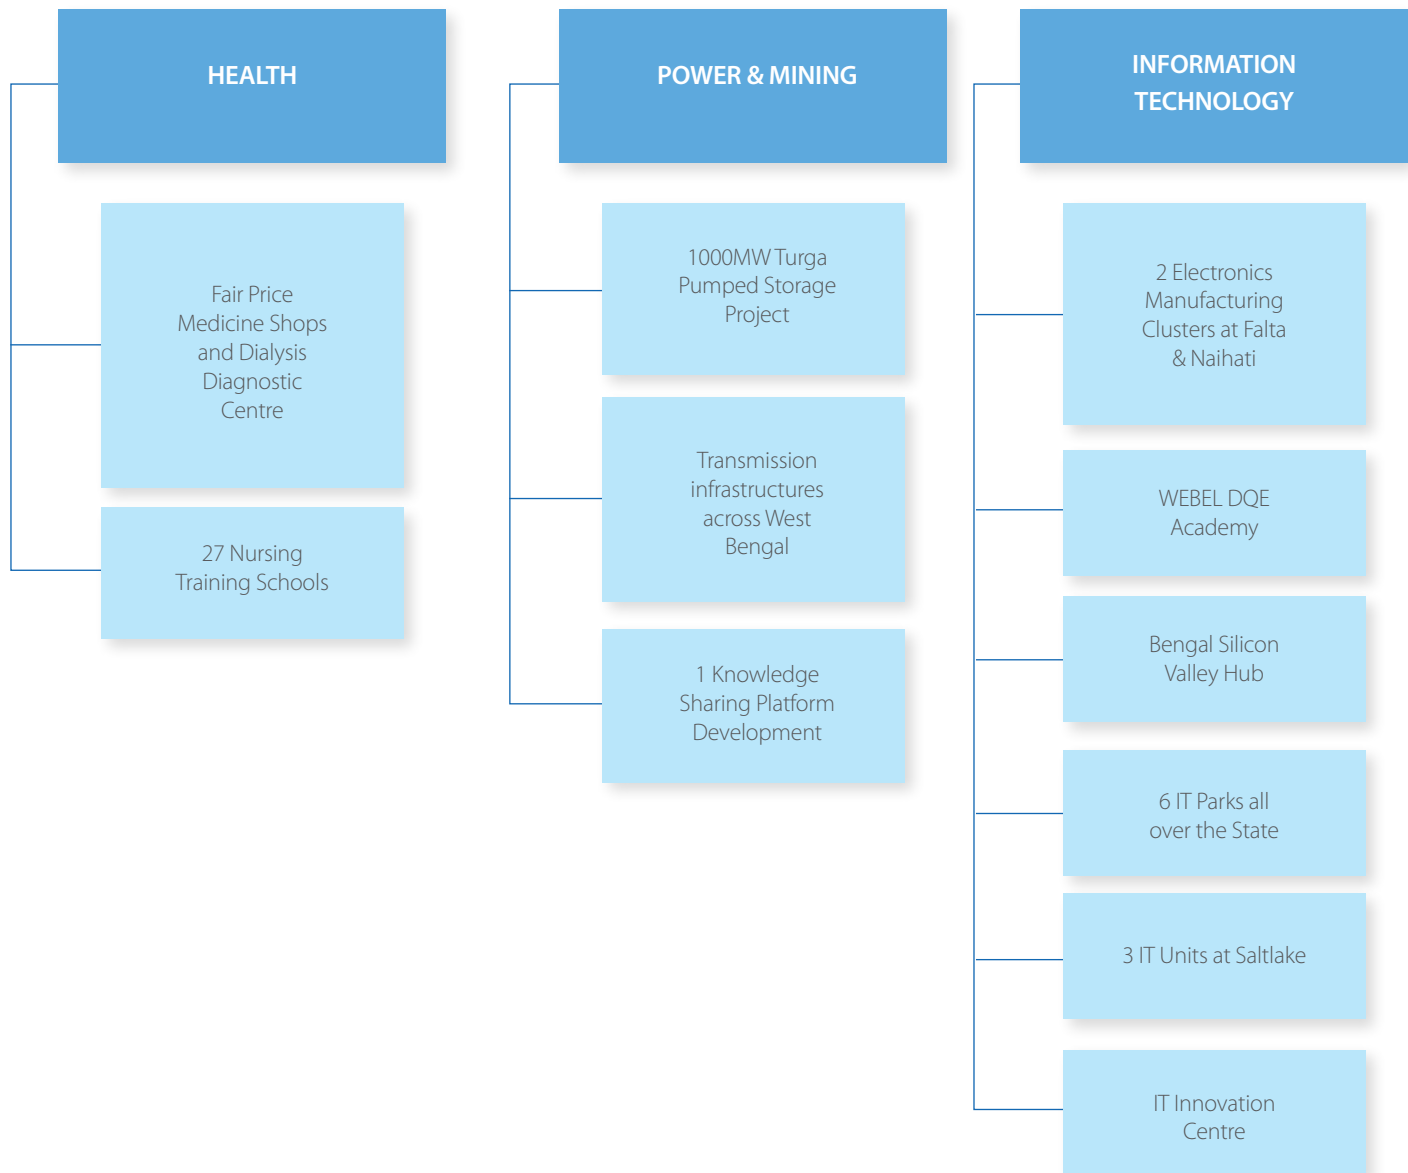

A broad schematic of the various sectors and types of investible projects have been provided in the following page.

# PORT

Particular	Description
<b>Project Title</b>	Development of Deep Sea Port at Tajpur
<b>Project Location</b>	Tajpur, Purba Medinipur
<b>Land Details/ Area of the Project</b>	458 Ha (Phase 1: 170 Ha & Phase 2: 288 Ha)
<b>Investment Potential</b>	USD 2.85 billion (INR 20,000 Crore)
<b>Operating Model</b>	PPP Model - Design Build Finance Operate and Transfer (DBFOT) basis
<b>Project Description</b>	<p>The Government of West Bengal is working towards a strategic initiative to enable port-led economic development across the State and position coastal regions of West Bengal as drivers of the State's economic growth. The State Government has thus proposed to develop an all-weather deep sea green field port at Tajpur in Purba Medinipur district.</p> <p>The identified location is close to the existing network of National Highway NH 116B (5 KM), which further connects to NH 41 &amp; NH 6 connecting the port to the Golden Quadrilateral of National Highways in the country and existing railway stations - Ramnagar Station (5 KM), Badalpur Station (7 KM) and Ashapura Station (9 KM).</p> <p>The proposed port is likely to benefit from upcoming major infrastructure projects planned in the region, including the Eastern Dedicated Freight Corridor (EDFC) at Dankuni at a distance of 168 km and Amritsar Kolkata Industrial Corridor (AKIC) at a distance of 170 km.</p>
<b>Investment Opportunities</b>	The port is anticipated to handle commodities like Coking Coal, Thermal Coal, Limestone, and Iron Ore to start with. Therefore investments are anticipated around port-linked development like setting up export oriented units, logistics development facilities, port-linked industrial & maritime clusters, smart industrial port cities and port infrastructure development & operations.
<b>Proposed Infrastructure Facilities</b>	<p>Infrastructure of the port to essentially include the following:</p> <ul style="list-style-type: none"> <li>- 200 m channel is provided in Phase 1 and 240 m in Phase 2</li> <li>- Channel depth to be provided is 12.1 m CD</li> <li>- The port will be able to handle vessels requiring 16 m draft</li> <li>- Annual maintenance dredging requirement is estimated to be about 1.5 million cum</li> <li>- 600 m turning cycle</li> <li>- Two numbers of breakwaters: north breakwater is 4 KM &amp; the south breakwater is 4.8 km</li> <li>- Dedicated fully mechanized coal import terminal</li> <li>- Multi cargo terminal with Harbor Mobile Crane arrangement at berth – Manual Handling</li> <li>- Dedicated container terminal with RMQC at Berth</li> </ul>
<b>Policy Intervention</b>	Not Applicable
<b>Status of Project</b>	Project Information Memorandum document available
<b>Nodal Department</b>	West Bengal Industrial Development Corporation
<b>Point of Contact</b>	<p>Shri P. Kamalakanth, Executive Director  West Bengal Industrial Development Corporation  23. Abanindranath Thakur Sarani (Camac Street),  Kolkata -700017  Phone: (033) 2255-3737 / 3821 / 3782  Email – <a href="mailto:shilpa.sathi@wbidc.com">shilpa.sathi@wbidc.com</a></p>

# LOGISTICS PARKS

Particular	Description
<b>Project Title</b>	Multi Modal Logistics Park at Tajpur
<b>Project Location</b>	Tajpur, Purba Medinipur
<b>Land Details/ Area of the Project</b>	150 – 200 acre
<b>Investment Potential</b>	USD 270 million (INR 1890 Crore)
<b>Operating Model</b>	To be developed on a PPP basis through BOO or BOOT route.
<b>Project Description</b>	<p>The State government is positioning the coastal areas of Bengal as drivers for growth, hence location of the Multi-Modal Hub at Tajpur is very feasible to cater to the volume of logistics envisaged for this region. It lies in close proximity to the upcoming deep sea port at Tajpur with proposed draft of 15 meters allowing 60,000 tonnes of docking capacity will boost the export industries. Warehouse capacity is estimated of the Logistics to be around 158,825 MT<sup>1</sup>.</p> <p>The city is located at ~170 km from Kolkata via NH 16. It also lies on the major mode of Connectivity via NH 116B, linking West Bengal and Odisha. The Site has access to NW 1 via Haldia till Allahabad, Uttar Pradesh and access to Multi modal terminal of Inland waterways at Haldia. The nearest airport is at Kolkata (170 Km).</p>
<b>Investment Opportunities</b>	To develop logistics park infrastructure and operations of the logistics park and establishment of 3PL & 4PL services
<b>Proposed Infrastructure Facilities</b>	- Logistics Park is anticipated to offer services like warehousing, cold storage, ICD/CFS and multimodal transport facilities, and facilities for value added services like cross docking, customization, stacking, labelling, thus creating a one stop for free trade & warehousing zone.
<b>Policy Intervention</b>	Logistics Park Development & Promotion Policy of West Bengal 2018
<b>Status of Project</b>	Conceptualization stage
<b>Nodal Department</b>	West Bengal Industrial Development Corporation
<b>Point of Contact</b>	Shri P. Kamalakanth, Executive Director West Bengal Industrial Development Corporation 23. Abanindranath Thakur Sarani (Camac Street), Kolkata -700017. Phone: (033) 2255-3737 / 3821 / 3782 Email – <a href="mailto:shilpa.sathi@wbidc.com">shilpa.sathi@wbidc.com</a>

<sup>1</sup> Low capacity utilization of warehouses (68 percent as in FY 17): The five districts of Kolkata, North 24 Parganas, Nadia, and Purba and Paschim Medinipur account for more than 50 percent of warehousing storage – KPMG Analysis

Particular	Description
<b>Project Title</b>	Multi Modal Logistics Park at Dankuni
<b>Project Location</b>	Dankuni, Hooghly district
<b>Land Details/ Area of the Project</b>	250 – 300 acre
<b>Investment Potential</b>	USD 400 million (INR 2800 Crore)
<b>Operating Model</b>	To be developed on a PPP basis through BOO or BOOT route.
<b>Project Description</b>	<p>The Government of West Bengal (GoWB) recognizes major traction in the logistics sector and envisages a multi-modal capable logistics and transportation sector in the state which will help reduce logistics cost and increase the competitiveness of West Bengal goods both in domestic market and exports. Being Multi Modal capable involves a “hub and spoke” model involving railways, highways, inland waterways, and airports to put in place a competitive and effective transportation grid in the state.</p> <p>It is located at a distance of ~13km from Howrah, 20km from Kolkata and 20km from the Kolkata Airport. The location has access to National Waterway (NW) 1 via Uttarpara at a distance of ~8km. Road connectivity to the logistics hub location is via NH19, NH16 and Asian Highway (AH1) and connectivity to Haldia port (120 KM Via NH16 &amp; NH116) &amp; Kolkata Port (30 KM Via AH1).</p>
<b>Investment Opportunities</b>	To develop logistics park infrastructure and operations of the logistics park and establishment of 3PL & 4PL services
<b>Proposed Infrastructure Facilities</b>	<ul style="list-style-type: none"> <li>- This Logistics Hub at Dankuni is anticipated to offer services like warehousing, cold storage, ICD/ CFS and multimodal transport facilities, and facilities for value added services like cross docking, customization, stacking, labelling, thus creating a one stop for free trade &amp; warehousing zone.</li> <li>- Other facilities include Integrated Logistics Transport Centre, Air cargo Centre, Hub operations Centre, and other Common Facilities like Administration &amp; other offices, Utilities (Power back up, T&amp;D network, IT &amp; Telecom Infra, Water Supply &amp; Sewerage System), Marketing and display centres, Petrol pumps, Weighbridges, Mechanical workshops, Aseptic packaging facilities, Liquid tank farm for liquid cargo, and Food testing laboratories.</li> </ul>
<b>Policy Intervention</b>	Logistics Park Development & Promotion Policy of West Bengal 2018
<b>Status of Project</b>	Conceptualization stage
<b>Nodal Department</b>	West Bengal Industrial Development Corporation
<b>Point of Contact</b>	<p>Shri P. Kamalakanth, Executive Director  West Bengal Industrial Development Corporation  23. Abanindranath Thakur Sarani (Camac Street), Kolkata -700017  Phone: (033) 2255-3737 / 3821 / 3782  Email – <a href="mailto:shilpa.sathi@wbidc.com">shilpa.sathi@wbidc.com</a></p>

Particular	Description
<b>Project Title</b>	Multi Modal Logistics Park at Durgapur
<b>Project Location</b>	Durgapur, Burdwan district
<b>Land Details/ Area of the Project</b>	200 – 250 acre
<b>Investment Potential</b>	USD 340 million (INR 2380 Crore)
<b>Operating Model</b>	To be developed on a PPP basis through BOO or BOOT route.
<b>Project Description</b>	<p>The Government of West Bengal (GoWB) recognizes major traction in the logistics sector and envisages a multi-modal capable logistics and transportation sector in the state which will help reduce logistics cost and increase the competitiveness of West Bengal goods both in domestic market and exports. Being Multi Modal capable involves a “hub and spoke” model involving railways, highways, inland waterways, and airports to put in place a competitive and effective transportation grid in the state.</p> <p>Proximity to the Andal Airport, the country’s first private sector Greenfield Airport, Access to AH 1 linking India with Bangladesh, China and Japan, Presence of the only operational dry port in the Eastern India, Access to Direct Freight Terminal for handling of railway rakes, Inland Container Depot (ICD) at Durgapur, Access to NW 7 and NW 29, Access to EDFC at Andal, Power availability from Durgapur Thermal Power station, Durgapur Steel Thermal Power station, Bakreshwar generating station, and Mejia Thermal Power station are the major infrastructural linkages to the location.</p>
<b>Investment Opportunities</b>	To develop logistics park infrastructure and operations of the logistics park and establishment of 3PL & 4PL services
<b>Proposed Infrastructure Facilities</b>	<ul style="list-style-type: none"> <li>- This Logistics Hub at Dankuni is anticipated to offer services like warehousing, cold storage, ICD/ CFS and multimodal transport facilities, and facilities for value added services like cross docking, customization, stacking, labelling, thus creating a one stop for free trade &amp; warehousing zone.</li> <li>- Other facilities include Integrated Logistics Transport Centre, Air cargo Centre, Hub operations Centre, and other Common Facilities like Administration &amp; other offices, Utilities (Power back up, T&amp;D network, IT &amp; Telecom Infra, Water Supply &amp; Sewerage System), Marketing and display centres, Petrol pumps, Weighbridges, Mechanical workshops, Aseptic packaging facilities, Liquid tank farm for liquid cargo, and Food testing laboratories.</li> </ul>

Particular	Description
<b>Project Title</b>	Multi Modal Logistics Park at Malda City
<b>Project Location</b>	Malda District
<b>Land Details/ Area of the Project</b>	100 – 150 acre
<b>Investment Potential</b>	USD 210 million (INR 1500 Crore)
<b>Operating Model</b>	To be developed on a PPP basis through BOO or BOOT route.
<b>Project Description</b>	<p>The Government of West Bengal (GoWB) recognizes major traction in the logistics sector and envisages a multi-modal capable logistics and transportation sector in the state which will help reduce logistics cost and increase the competitiveness of West Bengal goods both in domestic market and exports. Being Multi Modal capable involves a “hub and spoke” model involving railways, highways, inland waterways, and airports to put in place a competitive and effective transportation grid in the state.</p> <p>Major Catchment Area for this Logistics Park here includes Districts of Malda, Uttar Dinajpur, Dakshin Dinajpur, and Murshidabad.</p> <p>Strategic advantages of the location include it being the gateway to North Bengal and North Eastern states of India through Malda town railway station, proximity to Malda Food Park and Jangipur Mega Food Park, access to NH 12, originating from NH 27 and terminating at Farakka Barrage Township and power availability from Farakka Super Thermal Power station</p>
<b>Investment Opportunities</b>	To develop logistics park infrastructure and operations of the logistics park and establishment of 3PL & 4PL services
<b>Proposed Infrastructure Facilities</b>	<ul style="list-style-type: none"> <li>- This Logistics Hub at Malda City is anticipated to offer services like warehousing, cold storage, ICD/ CFS and multimodal transport facilities, and facilities for value added services like cross docking, customization, stacking, labelling, thus creating a one stop for free trade &amp; warehousing zone.</li> <li>- Other facilities include Integrated Logistics Transport Centre, Air cargo Centre, Hub operations Centre, and other Common Facilities like Administration &amp; other offices, Utilities (Power back up, T&amp;D network, IT &amp; Telecom Infra, Water Supply &amp; Sewerage System), Marketing and display centres, Petrol pumps, Weighbridges, Mechanical workshops, Aseptic packaging facilities, Liquid tank farm for liquid cargo, and Food testing laboratories.</li> </ul>

Particular	Description
<b>Project Title</b>	Multi Modal Logistics Park at Siliguri
<b>Project Location</b>	Siliguri District
<b>Land Details/ Area of the Project</b>	100 – 150 Acre
<b>Investment Potential</b>	USD 210 million (INR 1500 Crore)
<b>Operating Model</b>	To be developed on a PPP basis through BOO or BOOT route.
<b>Project Description</b>	<p>The Government of West Bengal (GoWB) recognizes major traction in the logistics sector and envisages a multi-modal capable logistics and transportation sector in the state which will help reduce logistics cost and increase the competitiveness of West Bengal goods both in domestic market and exports. Being Multi Modal capable involves a “hub and spoke” model involving railways, highways, inland waterways, and airports to put in place a competitive and effective transportation grid in the state.</p> <p>The second largest city of the state, Siliguri is reckoned as the gateway of the North-eastern India. The nearest railway station is at the New Jalpaiguri (NJP), within three Kms from the heart of the city. The Bagdogra Airport, the second International Airport of the state, is at a distance of 12 Kms. The city offers excellent connectivity with the rest of the country via NH 10, connecting Siliguri with Gangtok, NH 27, connecting Siliguri with Silchar, Assam, NH 31, connecting Uttar Pradesh and Malda via Siliguri, NH 34, connecting Siliguri and Kolkata, NH 55 and NH 110, connecting Siliguri and Darjeeling.</p> <p>Major catchment area of this Logistics Park include the districts of Darjeeling, Jalpaiguri, Kalimpong, Cooch Behar and Alipurduar district. It can also cater to the entire North East and neighbouring countries of Nepal and Bhutan.</p>
<b>Investment Opportunities</b>	To develop logistics park infrastructure and operations of the logistics park and establishment of 3PL & 4PL services
<b>Proposed Infrastructure Facilities</b>	<ul style="list-style-type: none"> <li>- This Logistics Hub at Siliguri is anticipated to offer services like warehousing, cold storage, ICD/ CFS and multimodal transport facilities, and facilities for value added services like cross docking, customization, stacking, labelling, thus creating a one stop for free trade &amp; warehousing zone.</li> <li>- Other facilities include Integrated Logistics Transport Centre, Air cargo Centre, Hub operations Centre, and other Common Facilities like Administration &amp; other offices, Utilities (Power back up, T&amp;D network, IT &amp; Telecom Infra, Water Supply &amp; Sewerage System), Marketing and display centres, Petrol pumps, Weighbridges, Mechanical workshops, Aseptic packaging facilities, Liquid tank farm for liquid cargo, and Food testing laboratories.</li> </ul>

# BIOTECHNOLOGY

Particular	Description
<b>Project Title</b>	Kolkata Biotech Park
<b>Project Location</b>	Rajarhat in Kolkata
<b>Land Details/ Area of the Project</b>	~0.9 Acre (38,000 sq. feet)
<b>Investment Potential</b>	~ USD 4.28 (~INR 30 Crore)
<b>Operating Model</b>	Government builds doorstep infrastructure like roads, internal infrastructure like CETP, SETP, Drainage, etc. Plots will be leased out to individual investor
<b>Project Description</b>	<p>Situated at Salt Lake in Kolkata and having a built-up area of ~0.9 Acre (38,000 sq. feet), land for this park has been procured by the West Bengal Biotech Development Corporation Ltd. (WBBDC) (A Government of West Bengal Undertaking) in 2011.</p> <p>A State of the Art modern incubation center equipped with the various instruments has been established. This facility has been used as the “Common Instrumental Facility” by various Companies who have taken space in this building.</p>
<b>Investment Opportunities</b>	<p>This facility will act as an incubation center for tissue culture. It will also include various kinds of research on plants and bio-fertilizers and how they can be used to increase the production of vegetables in the state.</p> <p>Instruments or technology which needs to be set up at this park would include the following:</p> <ul style="list-style-type: none"> <li>— 3500 Genetic Analyzer</li> <li>— Polyplex Oligonucleotide (Primer) Synthesizer</li> <li>— Step One Plus Real Time PCR</li> <li>— C1000 Gradient PCR</li> <li>— 24301-93UV-VIS Spectrophotometer</li> <li>— iMark Microplate Absorbance ELISA Plate Reader</li> <li>— Molecular Imager Chemi Doc XRS+ System Gel Documentation System</li> <li>— Trinocular Inverted Microscope with Phase contrast,</li> <li>— Multifuge X3R, Table top Refrigerated Centrifuge</li> <li>— Avanti JE, Floor Model Refrigerated Centrifuge</li> <li>— Galaxy 170R, Carbon-dioxide Incubator</li> <li>— Premium U410, Vertical -85°C Deep Freezer</li> <li>— AKTA purifier 100, Fast Protein Liquid Chromatography System</li> </ul>
<b>Proposed Infrastructure Facilities</b>	Basic Infrastructure like Common Instrument Facility Centre, access roads, CETP, ETP, Power etc. will be provided at the park. Additional infrastructure needs to be developed by individual investors.
<b>Policy Intervention</b>	Biotechnology Policy 2013, Government of West Bengal
<b>Status of Project</b>	Plots available for investors to set up technology units.
<b>Nodal Department</b>	West Bengal Biotech Development Corporation Ltd. (WBBDC)
<b>Point of Contact</b>	<p>Shri S. Kishore (I.A.S), Principal Secretary, Department of Biotechnology</p> <p>Block EN-24, Sector V, Salt Lake, Kolkata, West Bengal 700091.</p> <p>Phone: 033 4007 7640</p>

# CHEMICALS

Particular	Description
<b>Project Title</b>	Chemical Innovation Hub
<b>Project Location</b>	Kolkata and its surroundings
<b>Land Details/ Area of the Project</b>	Not available
<b>Investment Potential</b>	USD 70 million (INR 500 Crore)
<b>Operating Model</b>	PPP Model of development
<b>Project Description</b>	<p>As the Chemical hub of Eastern India, the West Bengal based chemical industries stand to benefit immensely from cutting edge-research in application areas involving water treatment, pharmaceuticals, construction, textile and leather processing and dyeing, among other things – targeted research would allow local industries to design bespoke products for end-consumers and stay ahead of competition.</p> <p>To this end, West Bengal may be potentially positioned as a Research &amp; Innovation Hub in the field of value-added knowledge chemicals by leveraging the presence of reputed academic and research institutions in the state. An anchor investor investing in high-end R&amp;D facility will be planned which includes experimental lab, live-lab for piloting, testing facility, patent office etc. The anchor investor will attract other R&amp;D companies, early-stage financiers (like VCs), out-fit of specialized research institutes etc. to co-locate in the Hub.</p>
<b>Investment Opportunities</b>	Investments are invited from private parties to set up R&D labs, testing facilities, business services center, etc.
<b>Proposed Infrastructure Facilities</b>	<ul style="list-style-type: none"> <li>- Wet chemistry lab for nano materials synthesis</li> <li>- Downstream processing, Ultrafiltration and microfiltration, Chromatographic separations</li> <li>- Anaerobic chambers</li> <li>- High pressure reactors</li> <li>- Analytical equipment</li> <li>- High Pressure batch autoclaves</li> <li>- Aspen Plus Process Simulator</li> <li>- Basic infrastructure, common facility center,</li> <li>- Available power and uninterrupted water supply</li> </ul>
<b>Policy Intervention</b>	Not Applicable
<b>Status of Project</b>	Project Conceptualization Phase
<b>Nodal Department</b>	West Bengal Industrial Development Corporation (WBIDC)
<b>Point of Contact</b>	<p>Shri P. Kamalakanth, Executive Director  West Bengal Industrial Development Corporation  23. Abanindranath Thakur Sarani (Camac Street),  Kolkata -700017  Phone: (033) 2255-3737 / 3821 / 3782  Email – <a href="mailto:shilpa.sathi@wbidc.com">shilpa.sathi@wbidc.com</a></p>

Particular	Description
<b>Project Title</b>	Synthetic (Polyester) Fiber Value Chain and Polyester Park
<b>Project Location</b>	Kalyani Nadia & North 24 Parganas
<b>Land Details/ Area of the Project</b>	300+ acre
<b>Investment Potential</b>	USD 570 – 600 million (INR 4000-5000 Crore)
<b>Operating Model</b>	Government builds doorstep infrastructure like roads, internal infrastructure like CETP, SETP, Drainage, etc. Plots will be leased out to individual investor
<b>Project Description</b>	<p>The Polyester manufacturing represents a unique opportunity for West Bengal as it will help the state to develop an integrated <b>petrochemical-fabric-apparel</b> value chain within the state. This PTA to Yarn to Fabric to Ready-made Garment value chain will necessarily stimulate demand for a host of textile chemicals which could be largely manufactured locally itself.</p> <p>Hence, investment is most desirable in a <b>polyester park</b> to cater to the thriving need of ready-made garment manufacturing hub in West Bengal, other Eastern-Indian states and Bangladesh. This park can house not only polyester manufacturing unit but also allied textile chemical (like disperse dyes for polyester dyeing) production facilities, which would help complement and augment the downstream garment value chain.</p>
<b>Investment Opportunities</b>	Polyester fiber / yarn manufacturing, Dye and dye intermediate, Other allied products and units
<b>Proposed Infrastructure Facilities</b>	- Basic infrastructure, common facility center, central effluent treatment plant, access roads, 24x7 power supply, etc.
<b>Policy Intervention</b>	Not Applicable
<b>Status of Project</b>	Project Conceptualization Phase
<b>Nodal Department</b>	West Bengal Industrial Development Corporation (WBIDC)
<b>Point of Contact</b>	<p>Shri P. Kamalakanth, Executive Director  West Bengal Industrial Development Corporation  23. Abanindranath Thakur Sarani (Camac Street),  Kolkata -700017  Phone: (033) 2255-3737 / 3821 / 3782  Email – <a href="mailto:shilpa.sathi@wbidc.com">shilpa.sathi@wbidc.com</a></p>

Particular	Description
<b>Project Title</b>	Downstream Polymer and Plastics Industry
<b>Project Location</b>	Haldia
<b>Land Details/ Area of the Project</b>	300+ acre
<b>Investment Potential</b>	USD 500 million (INR 3500 Crore)
<b>Operating Model</b>	Government builds doorstep infrastructure like roads, internal infrastructure like CETP, SETP, Drainage, etc. Plots will be leased out to individual investor
<b>Project Description</b>	<p>West Bengal is already endowed with petrochemicals (HDPE, LDPE, PP, Benzene, Butadiene, <i>etc.</i>) from not only HPL but also potential supply from the refinery and petrochemical complexes of the neighboring states of Odisha and Assam. This allows a direct downstream linkage with plastic based industries thereby creating further investment potential in areas like variety of plastic products, geo-textiles and plastic toys.</p> <p>A downstream polymer park may thus be conceptualized, in and around Haldia, to cater to the end-use consumer markets of West Bengal, Eastern and North-Eastern Indian states. Co-location of this proposed park with HPL in Haldia will provide investors with upstream raw material linkage as well as access to end-markets through readily available infrastructure.</p>
<b>Investment Opportunities</b>	Polymer and plastic units
<b>Proposed Infrastructure Facilities</b>	<ul style="list-style-type: none"> <li>- Basic infrastructure, common facility center,</li> <li>- Central effluent treatment plant, STP</li> <li>- Available power and uninterrupted water supply</li> </ul>
<b>Policy Intervention</b>	Not Applicable
<b>Status of Project</b>	Project Conceptualization Phase
<b>Nodal Department</b>	West Bengal Industrial Development Corporation (WBIDC)
<b>Point of Contact</b>	<p>Shri P. Kamalakanth, Executive Director  West Bengal Industrial Development Corporation  23. Abanindranath Thakur Sarani (Camac Street),  Kolkata -700017  Phone: (033) 2255-3737 / 3821 / 3782  Email – <a href="mailto:shilpa.sathi@wbidc.com">shilpa.sathi@wbidc.com</a></p>

Particular	Description
<b>Project Title</b>	Natural Gas Supply & Small-scale Gas Cracking Facilities
<b>Project Location</b>	Haldia
<b>Land Details/ Area of the Project</b>	Not available
<b>Investment Potential</b>	USD 142.8 million (INR 1000 Crore)
<b>Operating Model</b>	Government builds doorstep infrastructure like roads, internal infrastructure like CETP, SETP, Drainage, etc. Plots will be leased out to individual investor
<b>Project Description</b>	<p>Leveraging on the long-term outlook of increase natural gas availability in West Bengal, a smaller-scale (compared to HPL) gas cracking facility may be envisaged in Haldia to further ramp up petrochemical feedstock capacity in West Bengal.</p> <p>The increased petrochemical output will then likely have ready market linkages into the proposed downstream polymer park, thus ensuring HPL's current market and customer profile remains largely unaffected by the increased demand of petrochemical products.</p>
<b>Investment Opportunities</b>	Development of gas supply infrastructure and operation of the facilities
<b>Proposed Infrastructure Facilities</b>	<ul style="list-style-type: none"> <li>- Processing Plant</li> <li>- Liquefaction Units</li> <li>- Regasification Units</li> <li>- Underground Storage units</li> <li>- Basic infrastructure, common facility center,</li> <li>- Central effluent treatment plant, STP</li> <li>- Available power and uninterrupted water supply</li> </ul>
<b>Policy Intervention</b>	Not Applicable
<b>Status of Project</b>	Project Conceptualization Phase
<b>Nodal Department</b>	West Bengal Industrial Development Corporation (WBIDC)
<b>Point of Contact</b>	<p>Shri P. Kamalakanth, Executive Director  West Bengal Industrial Development Corporation  23. Abanindranath Thakur Sarani (Camac Street),  Kolkata - 700017  Phone: (033) 2255-3737 / 3821 / 3782  Email – <a href="mailto:shilpa.sathi@wbidc.com">shilpa.sathi@wbidc.com</a></p>

Particular	Description
<b>Project Title</b>	Specialty Chemical Cluster - Construction, Personal Care, Agrochemicals, Water Treatment chemicals and Paints
<b>Project Location</b>	Howrah and Haldia
<b>Land Details/ Area of the Project</b>	100+ Acre
<b>Investment Potential</b>	USD 142.8 million (INR 1000 Crore)
<b>Operating Model</b>	Government builds doorstep infrastructure like roads, internal infrastructure like CETP, SETP, Drainage, etc. Plots will be leased out to individual investor
<b>Project Description</b>	West Bengal is well positioned as well to capture the growth in the Specialty Chemicals market with an average growth of 15% by 2020. A Specialty Chemical manufacturing cluster / park may be conceptualized will have a promising potential in the state to cater to the end-use industry demands from West Bengal, Eastern and North-Eastern Indian states and Bangladesh.
<b>Investment Opportunities</b>	<p>Paint &amp; intermediates plant, personal care chemical plants, Agrochemical plant, Other multiple units across different specialty chemical categories, Textile chemicals, primarily colorants, Construction chemicals, primarily focusing on admixtures and flooring</p> <p>Investment in associated storage infrastructure such as Tank Farms and, specialized logistics and transportation facilities for chemical products</p>
<b>Proposed Infrastructure Facilities</b>	<ul style="list-style-type: none"> <li>- Basic infrastructure, common facility center,</li> <li>- Central effluent treatment plant, STP</li> <li>- Available power and uninterrupted water supply</li> </ul>
<b>Policy Intervention</b>	Not Applicable
<b>Status of Project</b>	Project Conceptualization Phase

Particular	Description
<b>Project Title</b>	Specialty Chemical Cluster - Construction, Personal Care, Agrochemicals, Water Treatment chemicals and Paints
<b>Project Location</b>	Panagarh
<b>Land Details/ Area of the Project</b>	40 Acre
<b>Investment Potential</b>	USD 14 million (INR 100 Crore)
<b>Operating Model</b>	Government builds doorstep infrastructure like roads, internal infrastructure like CETP, SETP, Drainage, etc. Plots will be leased out to individual investor
<b>Project Description</b>	West Bengal is well positioned as well to capture the growth in the Specialty Chemicals market with an average growth of 15% by 2020 <sup>2</sup> . A Specialty Chemical manufacturing cluster / park may be conceptualized will have a promising potential in the state to cater to the end-use industry demands from West Bengal, Eastern and North-Eastern Indian states and Bangladesh.
<b>Investment Opportunities</b>	<p>Paint &amp; intermediates plant, personal care chemical plants, Agrochemical plant, Other multiple units across different specialty chemical categories, Textile chemicals, primarily colorants, Construction chemicals, primarily focusing on admixtures and flooring</p> <p>Investment in associated storage infrastructure such as Tank Farms and, specialized logistics and transportation facilities for chemical products</p>

<b>Proposed Infrastructure Facilities</b>	<ul style="list-style-type: none"> <li>- Basic infrastructure, common facility center,</li> <li>- Central effluent treatment plant, STP</li> <li>- Available power and uninterrupted water supply</li> </ul>
<b>Policy Intervention</b>	Not Applicable

# AGRIBUSINESS

Particular	Description
<b>Project Title</b>	Malda Food Park
<b>Project Location</b>	Mokdumpur, Malda
<b>Land Details/ Area of the Project</b>	28.62 Acre
<b>Investment Potential</b>	USD 10 – 11 million (INR 60-80 Crore)
<b>Operating Model</b>	Private development leased by Government of West Bengal
<b>Project Description</b>	With available raw materials like vegetables, fruits and paddy from adjoining districts and Jharkhand, the location at Malda is extremely favourable to develop a Food park for food processing industries in West Bengal.
<b>Investment Opportunities</b>	Vegetables, fruits and paddy
<b>Proposed Infrastructure Facilities</b>	<ul style="list-style-type: none"> <li>- 10 plots [From 0.5 acre to 1.0 acre]</li> <li>- Power: 130 KVA</li> <li>- Water: On site ready availability arranged by Food Park.</li> <li>- Wide well paved metal roads including truck terminal</li> <li>- Administrative building</li> <li>- ETP and water treatment plant</li> <li>- Pack house, ware house and cold chamber</li> <li>- Food Court and backup power generator</li> </ul>
<b>Policy Intervention</b>	Special incentive for units within Food Park: Term Loan @ 9.5% from NABARD
<b>Status of Project</b>	2 SME units already functioning
<b>Nodal Department</b>	West Bengal State Food Processing and Horticulture Development Corporation Limited (WBSFPHDCL)

Particular	Description
<b>Project Title</b>	Jangipur Bengal Mega Food Park
<b>Project Location</b>	Jangipur, Murshidabad district
<b>Land Details/ Area of the Project</b>	Phase I - 90 Acre; Phase II & III – 250 Acre
<b>Investment Potential</b>	USD 35 – 100 million (INR 245 – 700 Crore)
<b>Operating Model</b>	PPP Model of Development
<b>Project Description</b>	<p>The Jangipur Mega Food Park has been conceptualized for the Food Processing industry keeping in mind the comparative advantage, West Bengal enjoys in this field. This food park is developed with assistance from the Government of India and developed by the SPV Jangipur Bengal Mega Food Park Limited.</p> <p>Thus Mega Food Park is an inclusive concept that aims to establish direct linkages from Farm to Processing to Consumer Markets. This structure is based on a Hub and Spoke model. The success of a Mega Food Park is hinged on the efficient logistics that link the CCs to PPCs to CPC.</p> <p>The Government provides Financial assistance upto INR 50 Crore to set up modern infrastructure facilities for Food Processing at Mega Food Parks.</p> <p>High quality Raw materials in terms of Fruits, Vegetables, Potato, Rice, Flour, Dairy, Grains etc can be sourced from the Zone of Influence covering the neighbouring 4 districts, i.e. Malda, Bardhaman, Birbhum, Nadia and Murshidabad.</p>
<b>Investment Opportunities</b>	Vegetables and Fruits processing. The Food Park is ideally located to service markets in East and North east India, Bihar, Jharkhand as well as export markets of Bangladesh, Nepal, and Bhutan.
<b>Proposed Infrastructure Facilities</b>	<ul style="list-style-type: none"> <li>- Plots available: 15 [From 50 dcml to 2 Acre]</li> <li>- Power: 33/11 KV HT Substation</li> <li>- Water: On site ready availability arranged by Food Park.</li> <li>- Modular Plug and Play facility of starting any processing</li> <li>- Road, Power, Water, Steam, and ETP facilities</li> <li>- Bank. Office space, Guest houses, Canteen</li> <li>- Cold Room, Warehousing</li> <li>- Ready shades with plug and play facility for SMEs – 1800+ sq. meters each. Standard design factories with plug and play facility for small enterprise – 300 sq. meters each.</li> <li>- Solid Waste disposal facility</li> <li>- Bio conversion of organic wastes</li> </ul>
<b>Policy Intervention</b>	Special incentive for units within Food Park: Term Loan @ 9.5% from NABARD
<b>Status of Project</b>	Developed plots of land of size Half Acre to 2 Acres are available. All plots are connected with internal roads and are offered Water and Electricity connectivity as per requirement subject to approval by respective authorities. A total of 17 plots are available.
<b>Nodal Department</b>	Jangipur Bengal Mega Food Park Ltd. (JBMFP)

Particular	Description
<b>Project Title</b>	Duckery & Poultry Development in West Bengal
<b>Project Location</b>	Statewide
<b>Land Details/ Area of the Project</b>	200 Acre – already developed. 600 Acre – available
<b>Investment Potential</b>	USD 114 million (INR 800 Crore)
<b>Operating Model</b>	Private (Individual / Proprietorship / Partnership/ Private Company/ Trust etc.) or cooperative
<b>Project Description</b>	State occupies a significant position in poultry population in the country. But per day production of egg falls below the per day requirement of consumption. It is considered necessary to meet the demand & supply gap and to ensure per capita nutritional requirement of egg. State Government has emphasized on domestic production of eggs by promoting Commercial Layer Poultry Farms and Poultry Breeding Farms to make the State self-sufficient in egg production.
<b>Investment Opportunities</b>	Setting up of Commercial Layer Poultry Farms and Poultry Breeding Farms in the State.
<b>Proposed Infrastructure Facilities</b>	Project based infrastructure is to be built by the Entrepreneurs. Government will be providing necessary incentives under relevant scheme.
<b>Policy Intervention</b>	<p><b>1. <u>Introduced West Bengal Incentive Scheme, 2017 for Commercial Layer Poultry Farm and Poultry Breeder Farm (WBIS 2017 for CLP &amp; PBFs) :</u></b></p> <p><b>Capital Grant / Subsidy:</b> @ INR 8,00,000 per unit of 10000 Commercial layer / Poultry breeder birds subject to maximum of INR 80,00,000.00</p> <p>i) <b>Interest subsidy on term loan:</b> upto 40% of total interest 5 years for 75% of the loan amount depending upon the size of farm</p> <p>ii) <b>Power Subsidy:</b> upto INR 1.50 per Kwh for 5 years to a maximum of INR 10 lakh depending upon the size of the farm</p> <p>iii) <b>Waiver of Electricity Duty</b></p> <p>Micro, Small and Medium farm : 75% for 5 years from date of commencement of commercial activity subject to maximum Rs. 2 lakh per year.</p> <p>iv) <b>Subsidy on Stamp Duty and Registration Fee:</b></p> <p>50% reimbursement of stamp duty and registration fee paid by it for the purpose of registration of documents within the State relating to purchase of land for setting up of the approved project.</p> <p><b>[Categorization of Commercial Layer Poultry / Poultry Breeder Farm will be made in the following manner:</b></p> <p>i) From 10,000 - upto 20,000 Commercial Layer / Poultry Breeder birds – Micro farm,  ii) Above 20,000 - upto 1,00,000 Commercial Layer/ Poultry Breeder birds --Small farm,  iii) Above 1,00,000 Commercial Layer/ Poultry Breeder birds – Medium farm]</p> <p><b>2. <u>Easy post facto conversion of Land for Poultry &amp; Duckery:</u></b></p> <p>The processing fees for post facto conversion of land for Poultry &amp; Duckery is a minimal Rs. 15/- per decimal in rural areas and Rs. 22/- per decimal in Municipal areas.</p>

<b>Status of Project</b>	<ul style="list-style-type: none"> <li>• Already 54 Investors applied under this Scheme to set up Commercial Poultry Farms having total Capacity of 20 Lakh Layer.</li> <li>• Out of 54 Farms, <ul style="list-style-type: none"> <li>✓ 13 Farms already started production of 2 Lakh eggs/ day</li> <li>✓ 11 farms placed Chicks and production of 4 Lakh eggs/ day will commence in next 4 months.</li> <li>✓ Rest farms under construction.</li> </ul> </li> </ul>

# TRANSPORT

Particular	Description
<b>Project Title</b>	Introduction of 80 Electric Buses in Kolkata
<b>Project Location</b>	Kolkata
<b>Land Details/ Area of the Project</b>	City Wide
<b>Investment Potential</b>	USD 10.4 million (INR 73 Crore)
<b>Operating Model</b>	Procured, operated and managed by the West Bengal Transport Corporation
<b>Project Description</b>	<p>With growing demand for West Bengal transportation services, battery powered electric vehicles (EVs) represent an alternate pathway towards improving ambient air-quality, energy security and economic opportunities. In this context, Government of West Bengal (GoWB) intends to position the state as one of the early adopters of Electric Vehicles (EVs). Adoption and main streaming of EVs will have the following benefits:</p> <ul style="list-style-type: none"> <li>➤ Facilitating and promoting an efficient and environment-friendly mode of transportation</li> <li>➤ Reduction of harmful carbon emissions and improvement in ambient air quality</li> <li>➤ Increased penetration and use of EVs will create additional power demand for the power utility providers in the state and avenue for utilization of renewable (surplus) energy</li> <li>➤ Reduction of budgetary outlay for fuel through decreased reliance on transportation fuel</li> <li>➤ Embracing a new economic pathway to increase economic security of West Bengal</li> </ul> <p>At this stage, the Government of West Bengal plans to introduce 100 Electric Buses as a pilot initiative in the state. These buses will be introduced in a phased manner by replacing old diesel buses plying on intra-city short routes in order to avail to the core city charging infrastructure.</p>
<b>Investment Opportunities</b>	Investment is possible in Electric Bus fleet, rechargeable battery manufacturing, vehicular technology, vehicle testing facility and charging infrastructure.

<b>Proposed Infrastructure Facilities</b>	<ul style="list-style-type: none"> <li>- The buses will contain rechargeable lithium ion battery of 100 kWh</li> <li>- The selection of a maximum fast charging rate of 5C (12 minutes for the 100 kWh bus models), will allow charging of up to 4 buses per hour (or 32 buses per overnight or 96 buses per 24-hour day)</li> <li>- This charging infrastructure can be owned and operated by the WBTC/CTC or CESC in Kolkata.</li> </ul>
<b>Policy Intervention</b>	Electric Vehicle Policy of India
<b>Status of Project</b>	The Government of West Bengal has already purchased 80 electric buses and plans to purchase additional buses to this pool.
<b>Nodal Department</b>	West Bengal Transport Corporation
<b>Point of Contact</b>	Shri. Narayan S. Nigam, IAS Managing Director at West Bengal Transport Corporation Paribahan Bhavan – I, 12, R.N. Mukherjee Road, Kolkata 700001, Call us: 033 2442 0278. Email: <a href="mailto:transportdeptt.wb@gmail.com">transportdeptt.wb@gmail.com</a>

Particular	Description
<b>Project Title</b>	Introduction of 20 Electric Trolley Buses in Kolkata
<b>Project Location</b>	Kolkata
<b>Land Details/ Area of the Project</b>	City Wide
<b>Investment Potential</b>	USD 6 million (INR 30 - 40 Crore)
<b>Operating Model</b>	Procured, operated and managed by the West Bengal Transport Corporation
<b>Project Description</b>	<p>Trams, in Kolkata, operate over a 100 year old transportation network system, which has not only resulted in reduced speed, performance and but also increased congestion on the busy city roads. Passengers are moving away from trams to buses due to their inherent inefficiency. With growing demand for West Bengal transportation services, electric vehicles (EVs) present an alternate pathway towards improving ambient air-quality, energy security and economic opportunities. In this context, Government of West Bengal (GoWB) intends to position the state as one of the early adopters of Electric Vehicles (EVs).</p> <p>To make the existing tram infrastructure more efficient, the Government wishes to replace the low performing slow speed trams with Electric Trolley Buses using the overhead power infrastructure.</p> <p>With this perspective in mind, the Government of West Bengal wishes to introduce 20 Electric Trolley Buses as pilot projects in the state. These buses will be introduced in a phase wise manner by replacing old trams plying in the city.</p>
<b>Investment Opportunities</b>	Investment is possible in Electric trolley fleet, rechargeable battery manufacturing, vehicular technology, vehicle testing facility and charging infrastructure.
<b>Proposed Infrastructure Facilities</b>	<ul style="list-style-type: none"> <li>- The buses will run on direct charge using the overhead 550 V DC network which will be upgraded to run the trolley buses</li> <li>- The buses will be equipped with smaller battery units enabling the bus to run without direct power for 5-6 kms</li> <li>- The overhead power infrastructure can be owned and operated by the WBTC/CTC or CESC in Kolkata and WBSEDCL outside Kolkata</li> </ul>
<b>Policy Intervention</b>	Electric Vehicle Policy of India
<b>Status of Project</b>	Conceptual Planning Phase
<b>Nodal Department</b>	West Bengal Transport Corporation

Particular	Description
<b>Project Title</b>	Introduction of Battery Operated Electric Ferry between Kolkata and Howrah
<b>Project Location</b>	River route between Howrah and Kolkata, West Bengal
<b>Land Details/ Area of the Project</b>	Not Applicable
<b>Investment Potential</b>	USD 2 million (INR 6 - 15 Crore)
<b>Operating Model</b>	Procured, operated and managed by the West Bengal Transport Corporation
<b>Project Description</b>	<p>The Howrah-Kolkata axis represents a vital water transportation route with distance between Howrah and Kolkata via water being about a third of the distance via road and travel time reduced by half.</p> <p>This provides an ideal test-bed for piloting battery operated ferries on this route and creating a platform for systematic proliferation and adoption of electric vehicles across all modes of transportation in West Bengal.</p> <p>The Government of West Bengal wishes to introduce two Battery Operated Electric-Ferries between Howrah and Kolkata on pilot basis. These 2 ferries will replace two diesel ferries from the current fleet and will also serve as a model for subsequent scale-up of adoption of electric ferries in Kolkata.</p>
<b>Investment Opportunities</b>	Electric ferries manufacturing, charging infrastructure
<b>Proposed Infrastructure Facilities</b>	<ul style="list-style-type: none"> <li>- Charging infrastructure will be available at the destination points as noted below. Approximately 12-15 mins will be required to charge the battery of the boat</li> <li>- The charging stations will be connected to the main electricity grid through DC Charges</li> <li>- The Power level of the charging stations will be DC Level 3 (DCFC) with Grid Voltage/Current (in Amperes) Input of 400-800/≥120 Ampere for charging battery above 50 kW for ferries which are categorized as heavy duty vehicles.</li> </ul>
<b>Policy Intervention</b>	Electric Vehicle Policy of India

# WASTE MANAGEMENT

Particular	Description
<b>Project Title</b>	Implementing an Integrated Solid Waste Management Facility in/around Kolkata
<b>Project Location</b>	Near Kolkata Metropolitan Area
<b>Land Details/ Area of the Project</b>	Hinterland of four to five municipalities in and adjoining Kolkata
<b>Investment Potential</b>	USD 3 million (INR 15 - 20 Crore)
<b>Operating Model</b>	PPP Model of development
<b>Project Description</b>	<p>With growing population pressure in West Bengal, optimization of resources and waste disposal services is the need of the hour. There is an increasing realization of the harmful effects that wastes have on the environment, land, human health, and climate. In this context, the Government of West Bengal (GoWB) intends to adopt a first-of-its-kind and state-of-the-art integrated solid waste management practice. The State wishes to build an Integrated Solid Waste Management (ISWM) Facility near Kolkata Metropolitan Area catering to a hinterland of four to five municipalities in and adjoining Kolkata. This will be a first of its kind project and is expected to catalyze better waste management practices going forward in the State. It is envisaged that project will serve an area having an estimated population of 10 lakh persons and generating almost 500 tonnes per day (TPD) of solid waste.</p>
<b>Investment Opportunities</b>	Waste recovery and recycling technologies, RDF Waste-to-Energy plant, technical assistance.
<b>Proposed Infrastructure Facilities</b>	<p>The facility may be designed to have the following components:</p> <ul style="list-style-type: none"> <li>— Compost Plant that can generate high grade compost for use in agricultural areas</li> <li>— Biogas Plant whose output can be used as cooking fuel or to run biogas buses in Kolkata</li> <li>— Segregation and Recovery Facility for separating paper, plastic, glass and metal scrap from the collected dry waste pile so that they may be sent to appropriate recycling facilities</li> <li>— An RDF Waste-to-Energy plant to generate energy by incinerating solid waste</li> <li>— C&amp;D Waste Recycling Unit that may be used for manufacturing of recycled aggregate, paver blocks, sand, etc.</li> <li>— A 15 to 20 year capacity Sanitary Landfill site for sustainable disposal of residual wastes that cannot be processed and/or recycled through the above processes</li> </ul>
<b>Policy Intervention</b>	Not Applicable
<b>Status of Project</b>	Project conceptualization phase

Particular	Description
<b>Project Title</b>	Remediation/Closure and Containment of the Active Dumpsite at the Municipal Solid Waste Dumping Area of Kolkata Municipal Corporation at Dhapa, Kolkata
<b>Project Location</b>	Dhapa, Kolkata
<b>Land Details/ Area of the Project</b>	12 hectares
<b>Investment Potential</b>	USD 10 million (INR 70 Crore)
<b>Operating Model</b>	PPP Model of development
<b>Project Description</b>	<p>Kolkata has two main dumpsites at Dhapa lying within the Ward No. 58 of the KMC on the eastern part of the city. The current dumping area is spread over about 35 hectares and consists of two unlined dumpsites, spaced about 500m apart - one closed dump of area of about 12.14 hectares and another active dump area of about 23 hectares. The Government wishes to undertake Remediation/Closure and Containment of the "Active Dumpsite" at the Municipal Solid Waste Dumping Area of Kolkata Municipal Corporation at Dhapa, Kolkata.</p> <p>This site will remain active for another couple of years approximately. Hence it is proposed to remediate 50% of the active dumpsite area i.e. around 12 hectares.</p>
<b>Investment Opportunities</b>	Landfill site remediation technologies, technical assistance
<b>Proposed Infrastructure Facilities</b>	<ul style="list-style-type: none"> <li>- Remediation / closure and containment of the dumpsite</li> <li>- Construction of Leachate Treatment Plant</li> <li>- Consultancy for supervision remediation/ closure or containment of site</li> <li>- Communication and awareness campaign in the project area</li> </ul>
<b>Policy Intervention</b>	Not Applicable
<b>Status of Project</b>	Remediation Action Plan preparation phase

Particular	Description
<b>Project Title</b>	Setting up of E-Waste recycling facility and ensuring better E-Waste management in the State
<b>Project Location</b>	Kolkata, West Bengal
<b>Land Details/ Area of the Project</b>	70 acre
<b>Investment Potential</b>	USD 10 million (INR 70 Crore)
<b>Operating Model</b>	PPP Model of development
<b>Project Description</b>	<p>Recycling offers a sustainable supply option to meet the growing demand for materials. E-waste recycling offers an attractive proposition for recovering secondary materials like steel, copper, aluminum, zinc, lead, plastic, etc. Government of West Bengal (GoWB) intends to position the State as a pioneer in state-of-the-art e-waste management practices.</p> <p>The Government wishes to establish an Integrated E-Waste Recycling Facility (dismantling + refurbishment + recycling) to ensure better E-Waste Management in the State. The facility will have to be fed by an organized collection and channelization of e-waste.</p>
<b>Investment Opportunities</b>	Integrated E-Waste Recycling, recycling technologies, technical assistance
<b>Proposed Infrastructure Facilities</b>	<ul style="list-style-type: none"> <li>- Integrated E-Waste Recycling Facility (dismantling + refurbishment + recycling)</li> <li>- A 10,000 metric tonnes per year capacity</li> <li>- Safe and environmentally compliant refurbishment, dismantling and recycling of e-waste</li> <li>- Savings in energy consumption through avoidance of energy use in extraction of virgin materials</li> </ul>
<b>Policy Intervention</b>	Not Applicable
<b>Status of Project</b>	Project conceptualization phase

# TOURISM

Particular	Description
<b>Project Title</b>	Gajoldoba eco-tourism hub (Bhorer Alo)
<b>Project Location</b>	Jalpaiguri District
<b>Land Details/ Area of the Project</b>	208 acre
<b>Investment Potential</b>	USD 80-100 million (INR 700 Crore)
<b>Operating Model</b>	PPP Model of development
<b>Project Description</b>	Spread over 208 acre of land between the Teesta Barrage and the Baikunthapur Forest, the Mega-project is envisaged to be the new destination for tourism prospects in the North Bengal. The region presents unique eco-tourism opportunities with the opulence of nature's bounties including serene Himalayan foothills, native flora and fauna, wide-ranging diversity in vegetation, landscape and scenery, culture and ethnicity, religion, and language, and is within 65 Kms from the Bagdogra International Airport.
<b>Investment Opportunities</b>	Eco Resorts, Eco Camp sites, Ayurvedic Spa, etc.
<b>Proposed Infrastructure Facilities</b>	The destination offers all tourism support infrastructure including road connectivity, uninterrupted power connectivity, water supply, sanitation and sewerage, inner arterial roads, paved pathway, street lighting, iron fencing along Baikunthapur Forest etc. The project is envisaged to offer integrated tourism facilities with eco-tourism cottages, Ayurvedic spa and wellness spa, high-end eco-lake resorts, star category eco-resorts, food courts, hospitality training institutes, camping area, retirement villa, museum etc.
<b>Policy Intervention</b>	Eco Tourism Policy of West Bengal (under preparation)
<b>Status of Project</b>	Project implementation phase

Particular	Description
<b>Project Title</b>	Power Equipment Manufacturing Hub
<b>Project Location</b>	Around Kolkata
<b>Land Details/ Area of the Project</b>	100 Acre
<b>Investment Potential</b>	USD 64 million (INR 450 Crore)
<b>Operating Model</b>	Government builds doorstep infrastructure like roads, internal infrastructure like CETP, SETP, Drainage, etc. Plots will be leased out to individual investor
<b>Project Description</b>	<p>West Bengal is one of the fastest growing economies in the country and a power surplus State. The State is one of the forerunners in the country in terms of achieving Last Mile Connectivity. The sector has witnessed fresh tenders of at least INR 4,000 Crore being issued in the last 2 years by the state government departments.</p> <p>Setting up of the digital power equipment manufacturing hub in West Bengal will be a flagship initiative for the State which can aim to be a one-stop destination for new age technology manufacturing for tomorrow. The State will be the 1<sup>st</sup> mover in setting up such a manufacturing hub in the country.</p>
<b>Investment Opportunities</b>	The State is looking at setting up a dedicated manufacturing hub for various digital power equipment like smart meter, chip manufacturing, optical fiber cable, building energy management system (BEMS) equipment, EV charging stations, micro grid components, Phasor Measurement Units, etc.
<b>Proposed Infrastructure Facilities</b>	<ul style="list-style-type: none"> <li>- Power: Provided by WBSEDCL/CESC</li> <li>- Facilities Availability of power, water, road, school, college, banks, etc.</li> <li>- Doorstep water connection with overhead water tanks</li> </ul>
<b>Policy Intervention</b>	National Capital Goods Policy 2016
<b>Status of Project</b>	Plots available. Entrepreneurs are requested to connect the department for allotment of land in the Declaration of Intent format.

Particular	Description
<b>Project Title</b>	Perishable Cargo Hub
<b>Project Location</b>	Kolkata
<b>Land Details/ Area of the Project</b>	0.5 acre
<b>Investment Potential</b>	USD 400,000 (INR 2.8 Crore)
<b>Operating Model</b>	Government builds doorstep infrastructure like roads, internal infrastructure like CETP, SETP, Drainage, etc. Plots will be leased out to individual investor
<b>Project Description</b>	<p>The State which is a major agriculture and food processing powerhouse and has been seeing substantial growth in the export of perishable goods like meat, seafood, fish, poultry and vegetables.</p> <p>As the State anticipates significant growth and investments in agriculture, agro-processing, and food processing sectors, it is imperative to further strengthen the storage, processing, and handling infrastructure, technologies, and skill-enhancement in the State.</p>
<b>Investment Opportunities</b>	<p>There is a demand for 0.44 million MT of food preservation infrastructure for meat and fish, a sizeable portion of which is in Kolkata.</p> <p>The State needs to augment its cold-chain and food preservation infrastructure. This will also enable the state to tap latent potential in export of other perishable cargo like pineapple, guava, cashew nut, green peas, brinjal, okra, litchi and jackfruit.</p>
<b>Proposed Infrastructure Facilities</b>	<ul style="list-style-type: none"> <li>- The Perishable Cargo Hub will be an environment controlled warehousing space (frozen or chill) functioning as storage and distribution hub of multiple products, such as fresh and frozen meat and fish, and other marine produces.</li> <li>- The facility will be a modern state-of-the-art facility with highly advanced temperature controlled storage options.</li> <li>- It is customized to offer comprehensive cold storage solutions with dedicated cold rooms with adjustable temperatures ranging from - 25°C to 25°C.</li> <li>- The hub will have a capacity of approximately 1000 – 1200 MT of perishable cargo.</li> <li>- The hub will include pre cooling infrastructure, freezing units - IQF, plate freezers, blast freezer and freezer cold storages.</li> <li>- Holding cycle will be short term for fresh meat and fish and marine products (15 days) and long term for deep frozen meat and fish (3 months to ten months).</li> </ul>
<b>Policy Intervention</b>	Not Applicable
<b>Status of Project</b>	Project conceptualization
<b>Nodal Department</b>	West Bengal Industrial Development Corporation (WBIDC)
<b>Point of Contact</b>	<p>Shri P. Kamalakanth, Executive Director  West Bengal Industrial Development Corporation  23. Abanindranath Thakur Sarani (Camac Street),  Kolkata -700017, Phone: (033) 2255-3737 / 3821 / 3782  Email – <a href="mailto:shilpa.sathi@wbidc.com">shilpa.sathi@wbidc.com</a></p>

Particular	Description
<b>Project Title</b>	Tea Hub in North Bengal
<b>Project Location</b>	North Bengal
<b>Land Details/ Area of the Project</b>	5-6 acre
<b>Investment Potential</b>	USD 3 million (INR 21 Crore)
<b>Operating Model</b>	Government builds doorstep infrastructure like roads, internal infrastructure like CETP, SETP, Drainage, etc. Plots will be leased out to individual investor
<b>Project Description</b>	<p>West Bengal is the 4th largest state economy in India where Tea Industry holds a prominent place having a legacy of over 150 years and tea growing areas spread across Darjeeling, Terai and Dooars regions. The State produces the renowned Darjeeling Tea which is exported worldwide as one of the premium tea brands</p> <p>The overall tea production of West Bengal was 384.51 Million Kg and accounted for 29% of the total country's production in 2017 with 1/4th of the total area under tea cultivation in the country and is the second largest tea growing State in India. All of the Tea processing activities take place in Kolkata, far away from the growing areas. Tea being a perishable commodity loses its flavour with increasing time between plucking and processing. Hence there is a good scope to process high quality tea in-situ of tea production in North Bengal. This hub will mainly cater to small tea growers in North Bengal helping them fetch a better market for their tea produced.</p> <p>Keeping Darjeeling at its center, the Government has developed a renewed focus on operationalizing plans to develop a specialized <b>Tea Hub</b> to cater to storing, warehousing, packaging facilities, value added processing, R&amp;D, logistics facilities, branding and marketing for the Tea Industry in North Bengal. The initiative is unique and a first-of-its-kind in India.</p>
<b>Investment Opportunities</b>	Completely automated end-to-end tea processing solution with high tech equipments at the hub from processing to packaging to marketing. The unit will have opportunities for investors to build temperature controlled warehousing solutions and green innovative packaging.
<b>Proposed Infrastructure Facilities</b>	<ul style="list-style-type: none"> <li>- One stop state-of-the-art facility for post-production activities in taking West Bengal tea to market.</li> <li>- It will be a highly automated facility with maximum mechanization for storing, warehousing sorting, handling, cleaning, processing, packaging, etc.</li> <li>- The facility is planned to be developed with basic infrastructure and amenities by the Government as part of its initiation</li> <li>- Will provide logistics services catering to both inbound and outbound movement of tea to and from the hub</li> </ul>
<b>Policy Intervention</b>	Not Applicable
<b>Status of Project</b>	Project conceptualization

<b>Point of Contact</b>	<p>Shri P. Kamalakanth, Executive Director  West Bengal Industrial Development Corporation  23. Abanindranath Thakur Sarani (Camac Street),  Kolkata -700017. Phone: (033) 2255-3737 / 3821 / 3782  Email – <a href="mailto:shilpa.sathi@wbidc.com">shilpa.sathi@wbidc.com</a></p>

Particular	Description
<b>Project Title</b>	Panagarh Industrial Park
<b>Project Location</b>	Ausgram-II, Galsi-I and Kanksa block of Bardhaman District
<b>Land Details/ Area of the Project</b>	369 acre
<b>Investment Potential</b>	USD 625 million (INR 4374 Crore)
<b>Operating Model</b>	Government builds doorstep infrastructure like roads, internal infrastructure like CETP, SETP, Drainage, etc. Plots will be leased out to individual investor
<b>Project Description</b>	<p>West Bengal Industrial Development Corporation Limited (WBIDC) is setting up a modern Industrial Park over 1458 acre at Panagarh in Burdwan district.</p> <p>Panagarh-Kanksa belt is a favorable destination for industries due to the availability of industrial infrastructure and climate.</p> <p>Recently Panagarh is emerging as one of the finest places of technical education. Already 2 major engineering and management Institutes (DIATM &amp; AIEM) are running under the belt of Panagarh.</p> <p>Both the Indian Army and Air Force have their establishment at Panagarh. An airport is also located here which is extensively used by Indian Air Force.</p>
<b>Investment Opportunities</b>	Automobiles, agro products, fertilizers, etc.
<b>Proposed Infrastructure Facilities</b>	<ul style="list-style-type: none"> <li>- All the plots within the Park are connected through a 30 m &amp; 24 m wide main arterial roads and 18m &amp; 15m wide main internal roads. The road will have adequate capacity to carry the load of industrial vehicles.</li> <li>- Drainage: Construction of drainage along both sides of arterial and internal roads in progress.</li> <li>- Power sub-stations: WBIDC has handed over two plots to WBSSEDCL for setting up of 132 KV Sub-stations (One Substation is operational and other in process) and one plot to WBSETCL for setting up of 220/132 KV Substation. Power tariff will be as per the existing tariff plans.</li> <li>- Water supply: PHE Department has been entrusted for construction of WTP and Pipeline for Supply of Industrial and potable water from Durgapur Barrage. It will require 3 years to complete the work. Till that time Ground water can be used with the approval of appropriate authority till surface water is made available.</li> <li>- Other facilities: WBIDC has already provided the Street Lighting Facility to the entire Park. .Now, WBIDC is in process of construction of Truck Terminal (3 nos.) , CFB Building, Fuel Station etc.</li> </ul>
<b>Policy Intervention</b>	All prospective investors are entitled to incentives available as per West Bengal Incentive Scheme.

<b>Status of Project</b>	<ul style="list-style-type: none"> <li>— Approximately 498.49 acre of land has already been allotted to M/s Matix Fertilizers and Chemicals Ltd. for setting up of a 2200 MTPD Ammonia Plant and 3850 MTPD single stream Urea Plant.</li> <li>— M/s. H&amp;R Johnson (India) has been allotted approximately 60 acre of land for Ceramic Tiles Manufacturing Unit.</li> <li>— M/s. Emami Cements Limited has been allotted land in the park.</li> <li>— HPCL has been allotted 75 acre land for their bottling plant.</li> <li>— Globus Spirit Ltd. Has been allotted land for their distillery Project.</li> <li>— M/s. IOCL has Been allotted Land in the Park.</li> <li>— Many applications for allotment of land are under process.</li> </ul>

Particular	Description
<b>Project Title</b>	Strengthening and Widening of Existing Road to Undivided Carriageway of Two Lanes From Sector-V to Bantala.
<b>Project Location</b>	Salt Lake Sector – V to Kolkata Basanti Highway within RAMSAR Site.
<b>Land Details/ Area of the Project</b>	Major part of the road has been through the localised habitation area and East Kolkata Wetland
<b>Investment Potential</b>	USD 5 million (INR 34.51 Crore)
<b>Operating Model</b>	State Fund
<b>Project Description</b>	The major portion of the carriageway of the project stretch is primarily single lane of carriage width 3.4m to 3.6m. The main aim of the project is to widen the existing carriageway upto standard two lane carriageway i.e. carriageway width of 7.0m for which land is required within the East Kolkata Wetland and the total length of the proposed road is 6.0 km (approx..).
<b>Investment Opportunities</b>	Implementation of this project would facilitate direct link between IT Sector zone and Sector-V in Salt lake city with flourishing Industry cum IT Sector zone at Bantala.
<b>Proposed Infrastructure Facilities</b>	The existing road proposed to be widened to two lane carriageway is connected with Kolkata Basanti Highway and Sector – V Salt Lake.
<b>Policy Intervention</b>	Environment clearance from MoEF, Gol and East Kolkata Wetland Authority shall be required to implement the project.
<b>Status of Project</b>	Preparation of EIA & EMP along with social impact analysis of the proposed road alignment has been undertaken through a consultant for obtaining clearance from MoEF, Gol and East Kolkata Wetland Authority.
<b>Nodal Department</b>	KMDA

<b>Project Title</b>	<p>Solid Waste Management Project for:-</p> <ol style="list-style-type: none"> <li>1) Baidyabati, Uttarpara-Kotrung, Rishra, Serampore, Champadani, Konnagar, Dankuni, Bhadreswar Municipality (Clustered Mode)</li> <li>2) Baruipur, Rajpur-Sonarpur Municipality (Clustered Mode)</li> <li>3) Bhatpara, Naihati, Kalyani, Gayeshpur, Kanchrapara, Garulia &amp; Halisahar (Clustered Mode)</li> <li>4) Chandannagar Municipal Corporation, Bansberia, Hooghly-Chinsura Municipality (Clustered Mode)</li> <li>5) Dumdum, South Dumdum, North Dumdum, Baranagar, Kamarhati &amp; New Barrackpore Municipality (Clustered Mode)</li> <li>6) Madhyamgram, Barasat Municipality (Clustered Mode)</li> <li>7) Panihati, Titagarh, Khardah, Barrackpore &amp; North Barrackpore (Clustered Mode)</li> </ol>
<b>Project Location</b>	Clustered Based
<b>Land Details/ Area of the Project</b>	Land available with various municipalities ranging from 2 Acre to 10 Acre
<b>Investment Potential</b>	USD 114 (INR 800 Crore)
<b>Operating Model</b>	DBFOT
<b>Project Description</b>	<p>State Government in its endeavour has taken several steps/initiatives for making all the cities Clean, Green &amp; Beautiful with special emphasis on management of Solid Waste in Municipal Towns of the State. All the Municipal Towns have been provided Movable/Stationary Compactor for proper transportation &amp; subsequent primary management of Solid Wastes to Dumping ground. Simultaneously, the State Government has started preparation of DPR for integrated Solid Waste Management of Municipal Towns either in Standalone Mode or in Cluster Mode, considering the Components – i) Waste segregation at source in two separate litter bins for bio degradable &amp; non bio degradable waste. ii) Door to door collection of segregated waste, iii) Transportation of Waste to Dumping ground through Compactor or other means, and iv) Segregation of Waste at Dumping ground (if required) and processing of bio degradable Waste either to Compost or Energy case to case basis. Special emphasis are being given on the sustainability of the project by way of generating revenue through composting and energy (Bio Gas or other form of Fuel) generation from the Bio degradable Waste. The concessionaire may select any other suitable method for such operation of Solid Waste Management. Effective Operation &amp; Management System to establish at least for 20 years.</p>
<b>Investment Opportunities</b>	As will be decided by the State Government.
<b>Proposed Infrastructure Facilities</b>	<ol style="list-style-type: none"> <li>1) Supply &amp; Delivery of equipments &amp; vehicles to the Municipalities</li> <li>2) Transportation of Waste to segregation point</li> <li>3) Waste to Energy plant</li> <li>4) Compost Plant</li> <li>5) Sanitary Land Fill</li> <li>6) Remediation of Legacy waste, case to case basis</li> </ol>

Particular	Description
<b>Project Title</b>	Universal Vegetable Processing & Training Centre for Tomato Powder at Berubari, Dist. Jalpaiguri Haldibari Road
<b>Project Location</b>	Mouza- Berubari, J.L. No.23, P.S. Jalpaiguri, Dist. Jalpaiguri
<b>Land Details/ Area of the Project</b>	10 acre
<b>Investment Potential</b>	USD 5.5 million (INR 37.43 Crore)
<b>Operating Model</b>	PPP Model- Design Built Finance and Operate (DBFO)
<b>Project Description</b>	<p>The entire region of Jalpaiguri in general and Haldibari in particular, in Cooch Behar district, near Jalpaiguri has atmosphere suitable for growing tomato and other vegetables. But, there is post harvest loss of tomatoes (nearly about 50%) in the peak season as storage life of fresh tomatoes is only 4 to 6 weeks. It is observed that due to lack of proper infrastructure for processing industries, mostly functioning in unorganized sectors, wastage is very high. To curb this post harvest loss SJDA has developed the project which approved under ASIDE scheme. The proposed project will help the local farmers get a reasonable price for their produce, the wastage of tomato will reduce and the value added product from processing of tomato will fetch good margin for the processing unit. The location of the project is identified near the source of tomato.</p>
<b>Investment Opportunities</b>	<p>India has a great potential of exporting tomato powder to the countries like Singapore, Indonesia, Philippines, Malaysia and the Middle East. Export to EU countries can be done with improved technology and export by sea using MA cartons. Besides these, the board scope of work for the private partner will be as follows :</p> <ul style="list-style-type: none"> <li>* Procurement, Operation &amp; Maintenance of the Tomato Processing &amp; Tomato Powder making unit.</li> <li>* Compliance with environmental laws during implement of the Project, i.e. development, operation and maintenance of the Project.</li> <li>* Planning, design, construction, operation and maintenance of all developmental works shall comply to the relevant Indian Standards and in the absence of Indian standards, relevant National / International Standards shall be complied with. Safety precautions, as per statutory requirements, shall also be complied with.</li> <li>* Planning, design and development of the Project by the bidder shall conform to the technical specifications / preliminary design criteria and standards pre-determined by the Authority and as set out in the Development and Operation Agreement to be entered into between the Concessionaire and the Authority.</li> </ul>

<b>Proposed Infrastructure Facilities</b>	Since the project is of processing in nature and involves use of specific technologies by the entrepreneur, SJDA has restricted its development upto boundary wall, land development, surrounding protection work and approach road.
<b>Policy Intervention</b>	Not Applicable
<b>Status of Project</b>	Process of e-tendering for the selection of developers will be taken by the authority.
<b>Nodal Department</b>	Siliguri Jalpaiguri Development Authority.

# POWER & MINING

Particular	Description
Project Title	1000 MW Turga Pumped Storage Project
Project Location	Ajodhya Hills, Purulia
Land Details/ Area of the Project	292 Ha ( Forest Land: 234 Ha, Non-Forest Land: 58 Ha)
Investment Potential	USD 989 million (INR 6,922 Crore )
Operating Model	EPC
Project Description	West Bengal Government follows the policy of providing uninterrupted 24x7 hours electricity supply through-out the state. In near future, beyond 2022, with the expected growth of industrialization and urbanization, in the state, there may be some shortfall power in the evening peak demand period but there will be availability of surplus power during off peak night/early morning hours. In order to manage the peak load demand and for better load management of the state of West Bengal beyond 2022, development of 4 x 250 MW capacity Turga Pumped Storage Project has been taken up by WBSEDCL.
Investment Opportunities	<ul style="list-style-type: none"> <li>• This project will act as the best partner for the Renewable Energy Integration like Solar and Wind Power. Thus development of Solar and Wind power generation will be accelerated.</li> <li>• Availability of stable and reliable quality power will support faster development of agricultural and Industrial Sector.</li> <li>• The project will support socio-economical development in the surrounding area with special emphasis on tribal and under privileged population.</li> </ul>
Proposed Infrastructure Facilities	<ul style="list-style-type: none"> <li>• The project will generate 1825 MU of energy annually.</li> <li>• About 4 km of access road for project / local people and about 12 km of internal project road will be constructed.</li> <li>• Irrigation arrangement for 9.065 Sq.km command area will be modernized.</li> <li>• Water supply arrangement will be upgraded to 1970 KLD upto 2047 for 21486 population.</li> <li>• Several local area developments work e.g. digging of new ponds, sinking of tube-well etc. under Social Area Development Program for the project.</li> </ul>
Policy Intervention	Not applicable

Status of Project	<ul style="list-style-type: none"> <li>• Cabinet Approval of Govt. Of West Bengal obtained.</li> <li>• Loan agreement for implementation of the project has been signed between Govt. of India and JICA on 02 November, 2018.</li> <li>• Environmental Clearance and Stage-I Forest Clearance obtained. Stage-II Forest Clearance under process.</li> <li>• Pre-construction Investigation, design &amp; engineering activities are going on.</li> </ul>

Point of Contact	Director (Generation), WBSEDCL, Vidyut Bhavan, Bidhannagar, Block DJ, Sector-II, Kolkata 700091 West Bengal, India Ph. No. +913323219946/+913323197246 e-mail : <a href="mailto:directorgen@wbasedcl.in">directorgen@wbasedcl.in</a>

Particular	Description
Project Title	Knowledge Sharing Platform
Project Location	In West Bengal under the jurisdiction of WBSEDCL.
Land Details/ Area of the Project	Almost 98.5% area of the State of West Bengal.
Investment Potential	No direct investment. It is a platform for sharing of knowledge, Business Practices & Technology through which improvement of present network & system may take place opening scope for new investment for new/upgrade equipments.
Operating Model	Technical and Business Cooperation between WBSEDCL and Korea Electric Power Corporation (KEPCO) to support each other through technical assistance, sharing of knowledge, capacity building programme, joint work, execution of information and experience in the field of electricity sector and business development.
Project Description	<ul style="list-style-type: none"> <li>i) Collaboration on advancements/ improvements in WBSEDCL Power network (including implemented SCADA portion), its metering status, data acquisition, monitoring and associated IT initiatives. Also understanding the Power Distribution business model which is now being run including the associated IT support system.</li> <li>ii) Power network modification/ up gradation plan in commensurate with fast technological advancement to achieve substantial but sustainable improvement in Power supply with quality improvement at niche customer segment as well as to the Co. as a whole.</li> <li>iii) Collaboration on integration of Renewable Energy (especially Solar) with new &amp; emerging Storage technologies.</li> <li>iv) Suggesting technical and other measures aimed at reduction of present loss profile of WBSEDCL.</li> <li>v) Capacity Building of employees through regular training programme with necessary field visit for more realistic exposure.</li> </ul>
Investment Opportunities	Opportunity may grow with the passage of time with introduction of new technology creating scope of investment & expansion of existing business in power sector.
Proposed Infrastructure Facilities	Upgradation of existing Power Distribution Network, IT infrastructure, metering etc. with focus on Renewable Energy & Storage Technologies.
Policy Intervention	Under the provision of National Electricity Policy and in commensurate with prevailing DISCOM Business Policies.
Status of Project	MOU between WBSEDCL and KEPCO is on the process of finalization.
Nodal Department	WBSEDCL under the umbrella of Power & NES Dept.

Particular	Description																																																																													
Project Title	Development of transmission infrastructure across West Bengal from 2018 to 2025																																																																													
Project Location	State-wide																																																																													
Land Details/ Area of the Project	-																																																																													
Investment Potential	USD 996 million (INR 6970.65 Crore )																																																																													
Operating Model	EPC																																																																													
Project Description	In consonance with WBSETCL's vision to develop and maintain the most reliable and economic power transmission system in the country with the highest system availability and quality and the least technical losses, development of power transmission infrastructure with a cumulative transfer capacity of 12484 MVA and transmission line of 5594.3 ckm has been undertaken by WBSETCL at various locations across the state.																																																																													
Investment Opportunities	<ul style="list-style-type: none"><li>• The project will improve reliability of power thereby reducing customer interruption frequency index and customer interruption duration index.</li><li>• Voltage profile will considerably improve and improve system stability &amp; reduce losses.</li><li>• Promote development in Industrial and Agricultural sector.</li></ul>																																																																													
Proposed Infrastructure Facilities	The project aims to install the following infrastructure between 2018 to 2025																																																																													
	<table><tr><th rowspan="2">Year</th><th colspan="5">Sub-station addition (Nos.)</th><th rowspan="2">Trans Capacity (MVA)</th><th rowspan="2">Trans Line (ckm)</th></tr><tr><th>400kV</th><th>220kV</th><th>132kV</th><th>66kV</th><th>Total</th></tr><tr><td>18-19</td><td></td><td>5</td><td>11</td><td></td><td>16</td><td>3173</td><td>1889.9</td></tr><tr><td>19-20</td><td></td><td>3</td><td>10</td><td></td><td>13</td><td>2103</td><td>913.4</td></tr><tr><td>20-21</td><td>1</td><td>2</td><td>10</td><td>1</td><td>14</td><td>2706</td><td>860</td></tr><tr><td>21-22</td><td></td><td>1</td><td>6</td><td></td><td>7</td><td>900</td><td>328</td></tr><tr><td>22-23</td><td></td><td>3</td><td>2</td><td></td><td>5</td><td>1160</td><td>477</td></tr><tr><td>23-24</td><td>1</td><td>1</td><td>3</td><td></td><td>5</td><td>1320</td><td>358</td></tr><tr><td>24-25</td><td></td><td>2</td><td>7</td><td></td><td>9</td><td>1122</td><td>768</td></tr><tr><td>Total</td><td>2</td><td>17</td><td>49</td><td>1</td><td>69</td><td>12484</td><td>5594.3</td></tr></table>	Year	Sub-station addition (Nos.) # INFORMATION TECHNOLOGY (IT)

Particular	Description
<b>Project Title</b>	Electronics Manufacturing Cluster, Falta
<b>Project Location</b>	Falta, South 24 Parganas
<b>Land Details/ Area of the Project</b>	70 acre
<b>Investment Potential</b>	USD 13 million (INR 94 Crore)
<b>Operating Model</b>	The state government is building doorstep and internal infrastructure (roads, CETP, SETP, drainage, sewerage, etc.) of the cluster. Individual plots in the cluster will then be leased out to interested investors.
<b>Project Description</b>	A greenfield electronics manufacturing cluster is scheduled to be set up at Falta Industrial Growth Centre in Ramnagar of South 24 Parganas. Falta EMC is on the shore of the river Hooghly and approximately 27 km from Haldia Port, and the Naihati EMC is located off Kalyani Expressway. The cluster aims to focus on medical electronics, industrial electronics, LED lighting (luminaries and chip fabrication), Solar PV (modules, cells and water fabrication), power supply, energy meters, etc.
<b>Investment Opportunities</b>	Investment is possible in setting up <ul style="list-style-type: none"> <li>• Small manufacturing units</li> <li>• Testing certification center,</li> <li>• R&amp;D laboratory,</li> <li>• incubation and facilitation center,</li> <li>• training center/skill development center,</li> <li>• central warehousing and raw material bank,</li> <li>• product design house,</li> <li>• tool room.</li> </ul>
<b>Proposed Infrastructure Facilities</b>	<ul style="list-style-type: none"> <li>- Administration office, Park Management, SPV office with government regulatory services</li> <li>- Vehicle Parking</li> <li>- Electrical Substation</li> <li>- Water supply and distribution network</li> <li>- Sewage treatment plant, Storm water drainage system, rain water recharge system, solid waste and disposal system</li> <li>- Fire station and firefighting facility</li> </ul>
<b>Policy Intervention</b>	Information Technology and Electronics Policy 2018; Electronics Manufacturing Clusters Scheme
<b>Status of Project</b>	Construction Complete. Plots available for investment

<b>Project Title</b>	Webel DQE Academy
<b>Project Location</b>	Sector V, Salt Lake, Kolkata
<b>Land Details/ Area of the Project</b>	9000 sq. ft.
<b>Investment Potential</b>	USD 900,000 (INR 624.60 lakh)
<b>Operating Model</b>	PPP
<b>Project Description</b>	Animation and VFX industry in India is expected to grow at an estimated CAGR of 17.2 percent to 1353 crore by 2016-2022 and the gaming industry is estimated to grow at the CAGR of 18.2 percent over the same period. The Webel DQE Animation Academy provides the platform for creative individuals to learn, share and develop themselves as animation professionals.
<b>Investment Opportunities</b>	2D and 3D animation institute.
<b>Proposed Infrastructure Facilities</b>	<ul style="list-style-type: none"> <li>• World class VFX and compositing facilities.</li> <li>• Digital 2D animation.</li> <li>• Latest unity game development, Nuke, Rotoscopy Tracking etc required for 3D animation.</li> </ul>
<b>Policy Intervention</b>	Not applicable.
<b>Status of Project</b>	Operations of Webel DQE Academy started in June 2018 and second batch has already started.

Particular	Description
<b>Project Title</b>	Bengal Silicon Valley
<b>Project Location</b>	Newtown, Rajarhat, Kolkata
<b>Land Details/ Area of the Project</b>	Total - 180 acre. Available area – 80 acre.
<b>Investment Potential</b>	Investment already realized – ~USD 56 million (~ INR 400 Crore). Further investment potential - ~USD 56 million (~ INR 400 Crore).
<b>Operating Model</b>	The state government is developing the Bengal Silicon Valley Hub over 180 acres with world class infrastructure provisions (electricity, water supply, sewerage, energy efficient buildings, etc.). Spaces are available for IT companies to come and set up their units.
<b>Project Description</b>	Built over 180 acres, the Bengal Silicon Valley is designed to become the premier destination in India for global IT companies. With half the available land area already taken up, the Hub is anticipated to drive innovation and growth in the IT sector of Bengal going forward.
<b>Investment Opportunities</b>	Investment opportunities exist in setting up ITeS operations
<b>Proposed Infrastructure Facilities</b>	<ul style="list-style-type: none"> <li>• Building Structure</li> <li>• Provisions for utilities (electricity, water, waste management, etc.)</li> <li>• Doorstep infrastructure (roads)</li> </ul>
<b>Policy Intervention</b>	Information Technology and Electronics Policy 2018
<b>Status of Project</b>	Allotment is forthcoming. The project would be coming after receiving the land and as per the terms of the allotment.
